WHY PARTNERS CHOOSE SAFA PLASTICS

Food & pharma specialisation
Components designed for applications where hygiene, fit and function matter.

Precision technology
Japanese all-electric injection moulding for tight, repeatable tolerances.

Certified quality system
ISO 9001:2015 quality management with batch traceability.

Reliable supply
In-house technical workshop and standby power keep production on schedule.

OUR GROUP

SAFA PLASTICS PRIVATE LIMITED

Safa Plastics · Paragon Plastics (Pvt.) Ltd.

Subsidiaries of Safa Plastics Private Limited, serving food and pharmaceutical packaging customers for the past 20 years.

02 / FROM OUR LEADERSHIP

Built on trust.
Driven by detail.

MESSAGE FROM THE DIRECTOR

By the grace of Almighty Allah, Safa Plastics has grown through a simple conviction:

> ***"Quality is not an occasional achievement, but a responsibility we uphold every day."***

Our customers depend on the smallest details being right. That is why we invest in capable technology, disciplined processes and the people behind them — so every component reflects the consistency, care and reliability our partners expect.

We believe lasting partnerships are built not only through what we manufacture, but through the confidence we create. As we look ahead, we remain committed to listening closely, improving continuously and delivering with integrity.

Thank you for placing your trust in Safa Plastics.

MUHAMMAD AAMIR YAMIN
Director, Safa Plastics

03 / SOLUTIONS

Made for what matters.

Purpose-designed packaging components for the sectors where precision, function and consistency are essential.

01 / PHARMACEUTICALS

Protection by design.

Components used across pharmaceutical packaging, moulded for accurate fit, clean finish and dependable dosing.

- Plastic ampoules
- Eye droppers & dosing pipettes
- Applicators
- Measuring cups & spoons

02 / FOOD & FMCG

Function meets form.

Closures and containers that protect product, look right on shelf and perform on high-speed filling lines.

- Spout caps & flip-top closures
- Jar caps
- Trays & bottles
- Custom-moulded components

04 / FEATURED PRODUCT

Oral Dosing Pipette.

A complete dropper-pipette assembly for liquid medicines — designed so patients and caregivers can measure and deliver doses with confidence.

NEW IN THE PHARMA RANGE

Graduated stem

Moulded measurement markings for clear, repeatable dose reading.

Bellows-style bulb

Ribbed bulb gives a smooth, controlled draw and release of liquid.

Integrated screw cap

Knurled cap doubles as the bottle closure for a neat, secure fit.

Crystal-clear body

Transparent material lets users see the dose at a glance.

Precision moulded

Produced on all-electric injection-moulding equipment under an ISO 9001:2015 system.

IDEAL FOR

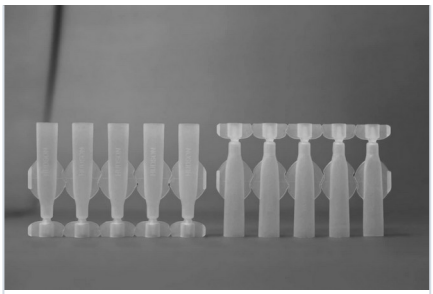

Oral drops · Paediatric & vitamin drops · Syrups & suspensions · Liquid supplements

Talk to us about neck finish, stem length and graduation to match your bottle and dosing requirements.

05 / PRODUCT PORTFOLIO

A focused, versatile range.

Functional plastic components, moulded for specific product and packaging needs — alongside the eye droppers and dosing pipettes in our pharmaceutical range, with Helicaps and HDPE bottles in the pipeline.

Plastic Ampoules

Precision components for pharmaceutical packaging

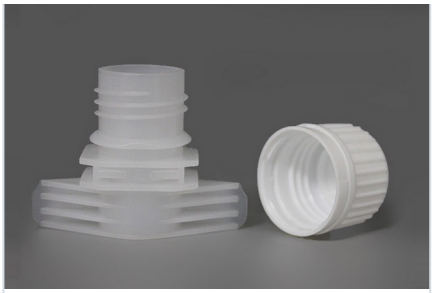

Measuring Components

Measuring cups and double-limb spoons

Spouts & Closures

10 mm and 11 mm spouts; 28 mm flip-top caps

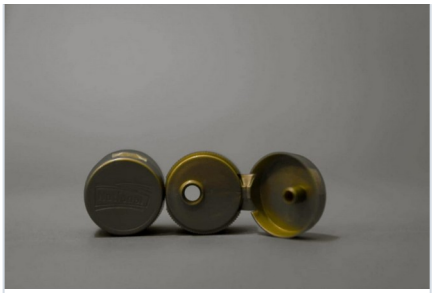

Pouch Spout Caps

Screw-cap spout fitments for stand-up pouches

Jar Caps

Chocolate jar caps in various sizes and HDPE formats

Flip-top Caps

Dispensing closures for food and FMCG products

Custom-moulded Parts

Trays and components to your brief — share a sample, drawing or idea

PIPELINE · COMING SOON

Helicaps

Carton-pack screw closures for dairy and beverages

PIPELINE · COMING SOON

HDPE Bottles

Pharmaceutical and nutraceutical bottles

06 / MANUFACTURING

Built for repeatability.

Equipment, engineering and facility support designed around the realities of continuous production.

TOYO SI-130-6S

All-electric injection moulding

TOYO SI-130-7S

Latest-generation all-electric injection moulding

VICTOR IBM

Injection blow moulding for bottles and containers

CAPPING MACHINE

Automatic cap application and tightening

Equipment images shown are representative manufacturer photographs of the machine models in use.

EQUIPMENT FLEET

NISSEI, JSW, Power Jet and TOYO injection moulding, plus Victor injection blow moulding and automatic capping.

ALL-ELECTRIC TECHNOLOGY

Japanese TOYO SI-130-6S and SI-130-7S all-electric machines support precision capabilities.

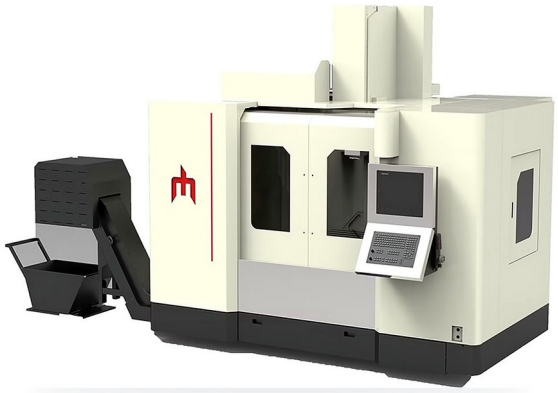

POWER CONTINUITY

A 110 kVA standby facility supports operations during local interruptions.

07 / IN-HOUSE TECHNICAL WORKSHOP

Tooling, made in-house.

Mould making, maintenance and tooling support under one roof — so changes are made quickly and production keeps moving.

2× CNC MILLING

Precision machining of mould cavities, cores and inserts.

3× EDM

Spark erosion for fine details, sharp corners and hard-to-reach features.

1× CNC LATHE

Accurate turning of round components, pins and mould parts.

Machine images shown are representative manufacturer photographs.

08 / QUALITY & CONTROLS

Quality isn’t an add-on. It’s the system.

A documented quality framework, production monitoring and traceability practices support consistency across production runs. The objective is repeatable output that customers can rely on.

01

PROCESS OVERSIGHT

Production monitoring to support early detection of process deviations.

02

BATCH TRACEABILITY

Recorded production inputs and quality checkpoints across manufacturing activities.

03

VERIFICATION & CALIBRATION

Raw-material checks and equipment recalibration are part of quality operations.

ISO **9001:2015**
Quality Management System

09 / CLIENT PORTFOLIO

Trust is earned in the details.

Selected organisations referenced in Safa Plastics' customer portfolio across food and pharmaceuticals, in Pakistan and internationally.

National Foods	**Young's Foods**	**Hudson Pharma**
SAMI Pharmaceuticals	**Aspin Pharma**	**GSK**
Novartis Pharma	**Packages Limited**	**Hamdard**
Haleon Pakistan Limited	**Integrated Plastics Packaging LLC**	

Consistency creates confidence.
Confidence creates lasting relationships.

10 / CONNECT

Let's build what comes next.

Whether you are developing a new component or sourcing dependable capacity, we'd welcome the opportunity to understand your requirements. Local and international enquiries are welcome.
